

Pathfinder Instructions

In the library this term you will be developing and improving your ability to find and use accurate information. You will do this by using a PATHFINDER – this is a website that gives you tasks to complete and supports you to complete each task.

The inquiry question you are answering this term is:

The history of transport in and around Sydney Cove from 1788 to today: What's changed and what's stayed the same?

On the Pathfinder site you will see tabs for General References; Books; Digital Resources; and Search Engine.

Click on the tab you wish to explore and scroll through the various tasks. Select a task you would like to complete and get started. Each task has some instructions and tips to guide you.

There is a Glossary tab that gives you definitions of some words used on the site.

You are expected to complete at least ONE task every library lesson.

As you complete a task, type your answers into the Pathfinder Solutions sheet in the Google Drive and show your results to Mr Smith.

The Pathfinder website is:
